America's Future Honors the "MaMa Bears" as the First Recipient of its *Fearless Fighters for American Values Award*

Englewood, Florida – June 19, 2021 – America's Future Inc., the nation's leader in the fight to preserve American values and ideals, protect the nation's Constitutional Republic, promote strong American families, revitalize the role of faith in our society, and advance the virtues of free market capitalism, is proud to announce that Emily Peterson and Kimberly Reicks of Ankeny, Iowa, founders of Freedom Over Fear Co. and nationally known as the "MaMa Bears," are the first recipients of its *Fearless Fighters for American Values* award. The award was established this year under the leadership of Lt. General Michael T. Flynn, USA (Ret.), chairman of America's Future, and is given to individuals and organizations demonstrating fearless courage in the fight for American values of life, liberty, and the pursuit of happiness. General Flynn presented Emily and Kimberly with the award before hundreds of attendees at the "ReAwaken America Tour" on June 19, 2021 in Tampa, Florida.

"May God bless these great heroes!" exclaimed General Flynn. "Emily and Kimberly exemplify the essence of patriotism and strength for the tireless work they do, fighting in the trenches for children and families and this great nation. We proudly recognize their efforts with America's Future's first annual Fearless Fighters for American Values award."

Kimberly and Emily started their campaign in March of this year when their young daughters were forced to wear masks in the classroom by overbearing government mandates. Little did they realize at the time that their work would sweep across the country, inspire others to take up the torch of fighting for freedom, and lead to Iowa Gov. Kim Reynolds signing the "Students First Act" into law in May, immediately making it illegal to require masks in schools and prevents cities and counties from having mask mandates that affect private property.

"As two moms, we knew that we had to act locally but to have a national impact is humbling and a huge blessing," said Emily. "Kimberly and I went into this journey hoping to lift the masks off of our children, fight for their medical freedoms, and against tyranny. We knew that taking a stand for such

a time as this was necessary, but courage is contagious and now our movement is sweeping the country, impacting hundreds of thousands of children and families as they are now standing beside us in this fight. As we travel across America it is our hope and prayer for God to send a tsunami of freedom to sweep across our nation. It is our belief that all of us Patriots were born for such a time as this. We must save our future. Our children are our future.”
