We Won't Give Up On California

Last week I had the privilege of traveling to California to spend time with thousands of patriots in Yuba City and Anaheim. I was so encouraged by the amazing men, women, and children I met. They are the ones working tirelessly to return the Golden State to the founding values that made America the greatest nation in the world.

Many will say that these patriots are wasting their time, but let me make one thing very clear: We won't give up on California. We refuse to believe that any state is too far gone to be brought back from the brink of anarchy. I was born and raised a Rhode Island Democrat. If I could come to find my place among so many other patriotic Americans, who is beyond hope? America's Future is an organization built for all patriots of goodwill.

Patriots in California are on their feet working to take back their school boards, their communities, and their state. If you live in New York, Illinois, Oregon, or Washington, don't give in to despair! What are you doing to make a difference? You're not going to restore your whole state tomorrow, but statewide impact starts with local action. Attend the school board meetings. Attend the county commissioners' meetings. Do the work right in front of you and move on to bigger things from there.

The patriots of Yuba City and Anaheim have my sincerest gratitude. Thank you for encouraging me that local action can truly have a national impact.

Sincerely,

Lt. Gen. Michael T. Flynn, USA (Ret.)
Chairman, America's Future, Inc.
