Honoring Service and Sacrifice at America's Wall of Honor "First Light" Ceremony on Veteran's Day

America's Future is proud to be a part of The Spirit of America Art Museum's "First Light" ceremony of America's Wall of Honor on Veterans Day (Nov. 11, 2021) in Omaha, NE to help pay tribute to the service and sacrifice of veterans, those serving in all branches of the military today, and all first responders across the nation. Along with the special lighting of 48-inch seals of the Army, Navy, Air Force and Marine Corps on the 55' x 10' America's Wall of Honor, the event will include remarks by America's Future Chair, Lt. General Michael T. Flynn, USA (Ret.).

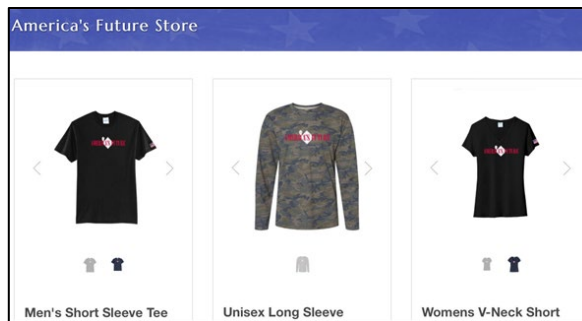

The Spirit of America Art Museum – an America's Future partner – commissioned America's Wall of Honor in 2019 as part of its mission to encourage and inspire people of all ages to learn about American traditions, values and patriotism with the goal of uniting America through art, education and love of country. The massive monument, along with a 1,000-square-foot tractor trailer gallery, divided into areas that represent various genres of art and educational exhibits, will be part of a five-year mobile museum tour across the United States beginning next year. Also planned as part of the traveling national tour, is a second expandable trailer functioning as a special classroom for children and young people called the "American Patriot Education Center." The Center will focus on teaching the U.S. Constitution and American history, values and ideals, and be available at stops around the country for local school field trips.

“It is a privilege and honor for America’s Future to be part of this important project,” said Mary O’Neill, executive director of America’s Future. “There is no greater service to our nation than the service and sacrifice of our men and women in the military and those brave individuals who serve their communities and states as police officers, firefighters, and rescue personnel to keep us safe in our homes and businesses. We are pleased to be a sponsor of the initiative and congratulate all those who have worked so hard on this project to see it through completion and get it on the road to share with the nation!”

Student Scholarship Program On The Horizon

America’s Future fulfills its mission in part by establishing partnerships and providing program grants to organizations that align with its guiding principles. For the first time, America’s Future is initiating a scholarship award program to spotlight exceptional high school students whose activities have had an impact in areas that preserve American values and ideals, protect the nation’s Constitutional Republic, promote strong American families, revitalize the role of faith in our society, and/or advance the virtues of free market capitalism. Read America’s Future newsletters to stay informed about all of our programs, and to learn more about the scholarship program, and the criteria and submission process.
