

Statement Regarding Election Integrity
Lt. General Michael T. Flynn, USA (Ret), Chair of the Board
April 8, 2022

In America, voting is the greatest equalizer – every legal vote is equally worthy, should hold the same weight, and must be counted precisely if we are to remain a Constitutional Republic. Elections represent a sacred right of our democracy, giving the ultimate power to the citizens of America to hold government accountable, and not the other way around.

These are the facts and there can be no debate.

Evidence of election interference and unlawful activity have been uncovered in connection with the 2020 general election. The recent Arizona Attorney General's [Maricopa County 2020 General Election Audit](#) interim report is just one example. There are others.

The Maricopa report, along with other investigations conducted across this nation since the 2020 general election have brought together thousands of patriotic citizens. Hard-working Americans have volunteered their time and talent in service to this nation and have given financial support and other resources to ensure that our election system and processes are free, fair and transparent. Their efforts are growing and will not stop.

Voting is sacrosanct in this nation – never to be taken for granted. The future of our country depends on the outcome of ongoing, nationwide election integrity initiatives spearheaded by multiple organizations, individuals, community leaders, elected and appointed officials and others.

America's Future is dedicated to protecting and preserving our God-given rights and the principles this great nation was founded upon, and we are sincerely grateful to all those who have, and will continue to contribute to this work.

God Bless America.
